

# High speed, low latency colocation

## Network Hub Colocation Promotion

Quickly reach a broader audience with turnkey cabinet, power, remote hands, and connectivity for **50% less**.

### Increase application performance and optimize network costs

Whether you're supporting an application modernization initiative, looking for geographically distributed locations for latency requirements or need better application performance and access to the leading cloud providers, you'll want to check out this limited-time offer.

## Promotion details:

### For 50% off list pricing, you receive:

- One lockable cabinet
- Up to 5 KW redundant amps/volts
- One hour of remote hands per month with the addition of Flexential Fabric

### Additional details

- 12–36-month terms
- Available to new and existing customers—one Network Hub per customer, per location at this price point
- Available in all Flexential data center markets
