Communicator: Your All-in-One Communication Solution

- **Elevate Your clients' Communications**
- **Unified Communications Software for Modern Business**

Communicator is a powerful Unified Communications Software designed to revolutionize your business communication. Tightly integrated with your PBX platform, it delivers a seamless and intuitive experience across all your devices.

Key Features for Enhanced Productivity

- **Team Chat Messaging:** Real-time communication with file sharing.
- **Presence:** See colleague availability at a glance.
- **High-Quality Audio:** Crystal-clear calls every time.
- **SMS & MMS:** Send texts directly from your desktop.
- **Video & Audio Conferencing:** Easy online meetings and collaboration.
- **Call Recording:** Record important conversations.
- **Unified Voicemail:** Manage voicemail in the app.
- **File Transfer:** Share documents quickly and easily.
- **Desk phone Integration:** Seamlessly switch between devices.
- **Contacts Management:** Keep all your contacts in one place.
- **Headline:** Tailored Editions for Your Business
- **Agent:** Optimized for call center efficiency.
- **Supervisor:** Powerful tools for call center management.

Tel-Synergy will also be a one-stop shop for all your clients' needs, including SIP trunking, broadband and fiber optic internet.

Our white glove customer care service is what differentiates us -or stands out- from the pack. Leave the heavy lifting to us. Your clients will be in good hands.
